Dear Capt. Frattarelli:

This letter confirms the Department of Environmental Protection's receipt of your Notice of Intent to Remediate on December 9, 1998, pertaining to the subject site and submitted in accordance with the provisions of the Land Recycling and Environmental Remediation Standards Act (Act 2). Your notice indicates that the site will be remediated to meet the Statewide health standard.

In order for your site to qualify for the release of liability provided by Act 2, the procedures set forth in the Act must be followed.

Upon completion of remediation, please submit your final report to the Department accompanied by the required fee and documentation verifying compliance with the public notification requirements. The Department will review the report to determine attainment of the indicated cleanup standard. If the final report is submitted within 90 days of a contaminant release which occurred after the effective date of this Act, public notification is not necessary.
