Re: Storage Tank Program
Willow Grove Naval Air Station
Pennsylvania Air National Guard
Facility ID No. 46-34440
Horsham Township
Montgomery County

Dear Major Luyando:

The Department has reviewed the closure report submitted by Envirotel, Incorporated dated September 17, 1992 regarding the removal of one 6,000 gallon gasoline (Tank 001) and one 6,000 gallon diesel (Tank 002) underground storage tanks at the above referenced facility.

Post excavation soil and ground water sample analytical results exceed Pennsylvania's ground water protection criteria.

The contamination of soil and/or water, including groundwater, as the result of a discharge, spill or release of a regulated substance from a storage tank is a violation of Section 1304 and 1310 of the Storage Tank and Spill Prevention Act, the Act of July 6, 1989, 35 P.S. §6021.1304 and 6021.1310.

In response to this contamination, a site assessment work plan prepared by PEER Consultants PC and dated January 1992 was submitted for Department review.

The soil boring and ground water monitoring well installation programs outlined in the report January 1992 site assessment work plan should be implemented by May 31, 1994 (if this has not already been done). A report detailing the results of the investigation should be submitted for Department review by June 30, 1994. Also by that date, closure information for the 275 gallon oil/water separator tank (Tank ID No. 03-330) should be submitted for Department review.

This letter does not waive, either expressly or by implication, the power or authority of the Commonwealth of Pennsylvania to prosecute for any and all violations of law arising prior to or after the issuance of this letter or the conditions upon which the letter is based. This letter shall not be construed

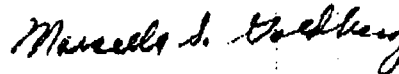

Aleyandro Luyando Jr. Major PaANG - 2 -
