

October 21, 2012

I am writing this so there is no misunderstanding of what was said at the D.E.P. meeting.

I am in favor of public water as a permanent solution for our polluted wells. I would like to be able to keep my well functioning for use outside, watering plants, washing vehicles, swimming pool, etc..

I do not think it has to be extended to all the properties on Grindleton Lane as there is quite a distance between the two affected wells and most of the other properties.

I am also in favor of adding sewer lines at this time to minimize cost.
